COVID-19 - POLICY – VACATION POLICY UPDATED JUNE 4, 2020

Retirement Life Communities (RLC) provides for a safe working environment for our staff at our retirement homes.

As a part of our due diligence to protect our Retirement Communities we are mandating that employees whom are currently on vacation and plan to travel Internationally are required to stay home for two weeks in self-quarantine upon returning from their vacation and prior to returning to the regular duties at each site.

Vacation is permitted within Canada, however, some provinces have restrictions for travel at this time. Approvals are granted by the management at each property. Upon returning from vacation the employee must be tested for Covid-19 locally and receive a negative test result within 24 hours of their test before returning to their regular duties.

This policy may be modified in the future based on the progression of the virus within Canada and globally.
